

Thank you for purchasing our equipment. Please read this manual carefully and heed the safety warnings and instructions before installing, using or repairing the equipment. This will ensure not only the protection of persons, but also the long life of the equipment.

## TECHNICAL PARAMETERS

Luminous flux	60lm
Light temperature	3000K, 6500K
Condition for automatic sensor activation	<10lux
Solar panel charging time	approx. 7 hours (depending on lighting conditions)
Net luminous time	approx. 8 hours (on a full charge)
Batteries	Li-Ion 3,7V 1200mAh
Coverage	IP44

The solar wall light uses solar energy as a source for lighting.

## WARNING

- The location for the installation of the solar light must be in a place with sufficient light without obstructions.
- Prevent the solar panel of the device from being covered by, for example, leaves or other obstacles.
- When using the device for the first time, switch on the device using the button and place the device in a location with sufficient sunlight.
- Do not disassemble, modify or repair the equipment. Dispose of the equipment at the end of its useful life in a designated place. The equipment does not belong in normal household waste.

## INSTALLATION

1. Insert the dowels into the pre-drilled holes.
2. Tighten the screws.
3. Use the button on the back to switch the device on. (Put your hand over the solar panel to see if the device lights up after dark. The colour of the light will change and press the button again to confirm the current colour of the light. If the device does not light up, make sure you have left the device sufficiently charged before use)
4. Mount the luminaire on the screws using the holes on the back.

The light source of this luminaire is non-replaceable, at the end of its service life the entire luminaire must be replaced and disposed of in a designated place. This product contains a light source that for design reasons cannot be removed for verification and therefore the entire product is considered a light source. The power cord cannot be replaced if damaged, the unit must no longer be used.

The product has been issued with a CE declaration of conformity in accordance with the applicable regulations.
