The LED solar chain uses solar energy as a source of lighting.

WARNING

- The solar string must be installed in a location with sufficient light and no obstacles.
- Prevent the solar panel from being covered by leaves or other obstacles.
- Do not disassemble, modify or repair the device. At the end of the device's service life, dispose of it at a designated location.
- The device does not belong in normal household waste.
- Do not hang anything on the device or cover it.

INSTALLATION

Do not charge the device before installation.

- 1. Select a suitable location and position the solar panel. It can be attached to a peg and stuck into the ground, for example.
- 2. Switch on the device using the ON/OFF (POWER) button on the back of the device.
- 3. Select the lighting mode using the MODE button on the back of the device.

The light source of this luminaire is not replaceable. At the end of its service life, the entire luminaire must be replaced and disposed of at a designated location. This product contains a light source that cannot be removed for verification due to its design, and therefore the entire product is considered a light source. The power cord cannot be replaced. If it is damaged, the device must not be used.

The product is covered by a CE declaration of conformity in accordance with applicable regulations. Available on request from the manufacturer: info@solight.cz, or downloadable from www.solight.cz/en.
