

Thank you for purchasing our equipment. Please read this manual carefully and heed the safety warnings and instructions before installing, using or repairing the equipment. This will ensure not only the protection of persons, but also the long life of the equipment.

TECHNICAL PARAMETERS

Accumulator	Li-Ion 3.7V 800mAh
Luminosity	170lm
Illumination time	min. 1,5h / max. 3h
Charging time	approx. 3 hours (when using a 5V/1A USB adapter)
Coverage	IP44
Lighting modes	cold light; 100%-50%-flicker; warm light; 100%-50%-flicker; both lights together; 100%

DESCRIPTION OF EQUIPMENT

CHARGE

Open the rubber cover of the USB-C charging port and plug the device into a USB socket on your computer or USB charging adapter. Charging is indicated by four green LEDs on the side of the device. Once all the LEDs are lit, the device is charged. Fully charge the device before using it for the first time.

LIGHTING MODES

Press  for cool white and  for warm white on the top of the flashlight.

WARNING!

- Make sure that the charging voltage matches the specifications.
- Do not attempt to charge the light in a damp or wet environment.
- Do not disassemble or repair the equipment, or expose it to extreme temperatures or open flames.
- Do not leave the luminaire connected to the mains for an extended period of time after it has reached full charge, as overcharging can reduce battery life.
- Store the flashlight in a cool, dry place away from direct sunlight or extreme temperatures.

The light source of this luminaire is non-replaceable, at the end of its service life the entire luminaire must be replaced and disposed of in a designated place. This product contains a light source that for design reasons cannot be removed for verification and therefore the entire product is considered a light source. The power cord cannot be replaced if damaged, the unit must no longer be used.

The product has been issued with a CE declaration of conformity in accordance with the applicable regulations.
