

Thank you for purchasing our equipment. Please read this manual carefully and heed the safety warnings and instructions before installing, using or repairing the equipment. This will ensure not only the protection of persons, but also the long life of the equipment. The device is infinitely dimmable, switching on, changing brightness and chromaticity at the touch of a finger

TECHNICAL PARAMETERS

Luminous flux	max. 120lm
Chromaticity temperature	3000K, 4000K, 6500K
Colour rendering index	CRI>80
Batteries	Li-Ion 18650, 3.7V 2000mAh
Battery life	approx. 5 hours at 100% power
Battery power supply time	about 5 hours
Power	USB C 5V (cable included, adapter not included)
Max size	110x 350 mm
Coverage	IP20

CONTROL

- To switch on, press the  button on the top of the device. Press again to switch the colour temperature. Switch off after the 4th press of the button.
- Use the colour palette to select the colour of the light.
- Long press the  button to increase/decrease the brightness of the illumination (not valid for coloured illumination).

The device can be carried around or left permanently powered using a USB-C cable.
The lamp is suitable for use on covered terraces, balconies, pergolas and homes.

INSTALLATION

1. Screw the parts together.
2. Fully charge the device before using it for the first time.
3. Use the button on the top to toggle the light mode and use the coloured "circle" to select the light colour.

WARNING!

- Make sure that the charging voltage matches the specifications. The rated input current is 100-240 V 50/60 Hz. The rated output current is 5V DC. Use a 5V adapter.
- Do not attempt to charge the light in a damp or wet environment.
- Do not disassemble or repair the equipment, or expose it to extreme temperatures or open flames.
- Do not leave the luminaire connected to the mains for an extended period of time after it has reached full charge, as overcharging can reduce battery life.
- Store the flashlight in a cool, dry place away from direct sunlight or extreme temperatures.
- Do not disassemble or repair the equipment at the end of its service life.
- Do not use the device if it is damaged.
- Do not expose to rain

The light source of this luminaire is non-replaceable, at the end of its service life the entire luminaire must be replaced and disposed of in a designated place. This product contains a light source that for design reasons cannot be removed for verification and therefore the entire product is considered a light source. The power cord cannot be replaced if damaged, the unit must no longer be used.

The product has been issued with a CE declaration of conformity in accordance with the applicable regulations.
